### Highlights

Reading continues to be the top priority in the elementary schools. The Open Court reading program was instituted in grades 2-5 to strengthen the reading focus.

Reading and math intervention, district wide, has helped many students become proficient or above on the ISAT. For example at Malad Middle school, 36 out of 38 students enrolled in the remediation classes became proficient or above on the reading ISAT. Intervention is bringing great results.

Malad Elementary was recognized as a school making Additional Yearly Growth in math and reading for exceptional progress..

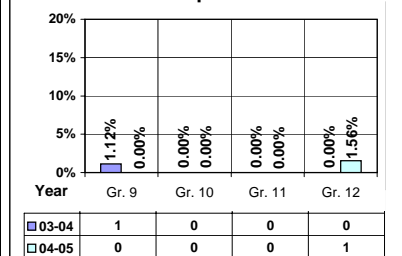

An alternative school for students who were struggling in the regular system was established. We're proud of the students' success in that school. All students enrolled were able to become proficient on the ISAT in reading, math and language.

### Progress Towards Meeting Goals

#### 2004-05 Goals

#### Progress

Establish an alternative high school for at-risk students in Oneida School District

Oneida High School, an alternative school aimed at providing a quality education to at-risk students, opened its doors in January, 2005.

Implement a life skills curriculum for the at-risk students in Oneida High School.

We have received a grant to implement a life skills curriculum for the 2005-06 school year. The person who will be teaching this curriculum has been hired and trained. We feel this curriculum will be a great addition to Oneida High School.

Work toward all students reading on grade level by the end of 3<sup>rd</sup> grade.

Intervention was in place by November for students in grades 1-3. Statewide reading achievement goals were met for grades K-3.

Increase the percentage of students who are proficient on the ISAT – math, reading and language.

Remediation classes were put in place at all schools and preliminary results from the spring ISAT show that students have made great gains.
